BlueSYSTEM bundle

Communication ... fast, easy and reliable!

Until now:

The BlueMETER SIGMA has two functions.

1. As an interface to transmit the measuring data to the PC

2. As a remote display for alignment applications

New:

The wylerCONNECT is our response to master the changing needs and requirements of current and future measuring tasks.

1. The wylerCONNECT is our new interface to the PC
   - integrated license functions
   - measuring instruments will automatically be recognized and can directly be chosen by the user
   - Bluetooth and bluetooth low energy (BLE) - support
2. The BlueMETER SIGMA remains as our remote display for our sensors

Choice of the correct measuring instrument ... as easy as never before!

Until now:

New:

Pre-configured BlueSYSTEM bundles, which can be adapted to the specific application of the customer with the help of a streamlined set of options.

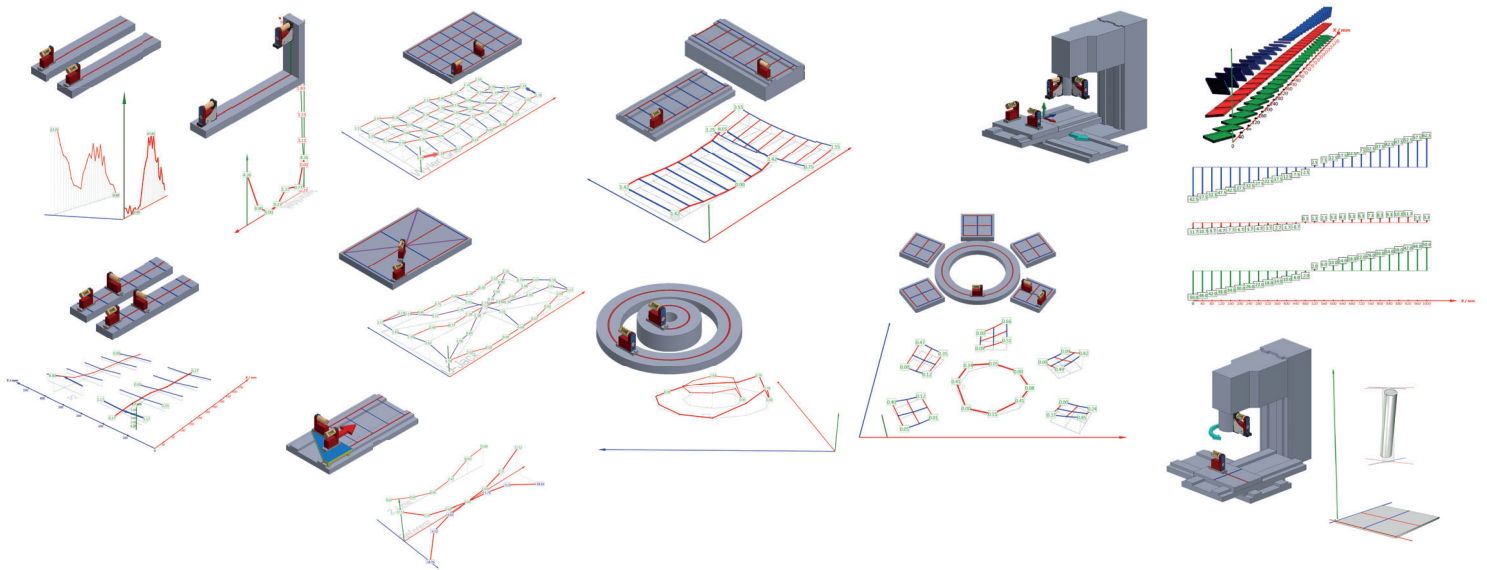

Options:

... simple and clear

BlueSYSTEM bundle

I know the application ... how to find the correct BlueSYSTEM bundle?

The applications of each BlueSYSTEM bundle are clearly visible;
here – as an example – BlueSYSTEM bundle 1 with the wylerSPEC software:

What is included in a BlueSYSTEM bundle?

Each BlueSYSTEM bundle consists of two instruments from the BlueSYSTEM series with the required options
and – if a software is used – the wylerCONNECT interface.
Here – as an example – BlueSYSTEM bundle 1 with the wylerSPEC software:

BlueLEVEL 1   BlueLEVEL 2   Optional   wylerCONNECT   Software
                                   display units

Options:

PC / Laptop not included

... efficient and reliable!

BlueSYSTEM bundle

Where are the advantages of the BlueSYSTEM bundle?

For the user:

- Easy to choose the optimal instruments for the application, due to clearly defined packages
- Flexible adaptation to the specific requirements with the help of a streamlined set of options
- Reliable wireless communication
- Open and compatible with future WYLER instruments
- Economical solution

Inclination measuring systems. Precise. Since 1928.
