Temporary Sales Stop BlueMETER SIGMA with Radio and BlueTC

Dear customers, dear partners

Temporary Sales Stop BlueMETER SIGMA with Radio and BlueTC

Due to the shortage of the Bluetooth® modules, that are used in the BlueMETER SIGMA with Radio and the BlueTC, WYLER has to announce a temporary sales stop for these items.

Affected P/N are:

- 016F004-002 - BlueMETER SIGMA with Radio
(and all other products where the BlueMETER SIGMA with Radio is part of)
- 016-003-003-F - BlueTC with Radio and battery pack

The temporary sales stop is valid for orders as of May 2022. This temporary sales stop will be valid as long as not enough Bluetooth® modules are available.

BlueMETER SIGMA without Radio is still available

The BlueMETER SIGMA without Radio (P/N: 016-004-002) is still available. It can be used with cable connections.

Sales Start wylerPLOT

WYLER announces the sales start of the software application wylerPLOT. It can be ordered as of today. The first deliveries of the software application wylerPLOT will be end of May.

wylerPLOT runs on a tablet or on a laptop with Windows 10 (or higher)

wylerPLOT offers among other things similar functionalities like the BlueMETER SIGMA. wylerPLOT works with the interface wylerCONNECT and will be part of wylerSOFT – Info-Center.

wylerPLOT connects via the wylerCONNECT also with the BlueLEVEL, the BlueLEVEL II, the BlueLEVEL-2D, the wylerLEVEL family and the wylerCLINO family. There will be full interoperability between the different electronic inclination devices from WYLER.

wylerPLOT, impressions from the GUI

More information is in the BlueLEVEL II catalog and on the WYLER website. Further information on the software application wylerPLOT will follow.

Kind regards
